Session Schedule & Descriptions

Schedule	Session A	Session B
8:00-9:00 a.m.	Registration, health screenings, & vendors	
9:00-10:20 a.m.	Large animal safety	Personal protective equipment
10:30-12:00 noon	Emergency preparedness	Farm equipment safety
12:00 noon-1:00 p.m.	Lunch, health screenings, & vendors	
1:00-2:20 p.m.	Personal protective equipment	Large animal safety
2:30-4:00 p.m.	Farm equipment safety	Emergency preparedness

Farm Equipment Safety

The session will present a tractor roll over demonstration, causes of tractor roll over and how to prevent it. Additional topics include power take off safety, hydraulics safety, safe chain saw operation, and the safe use of all-terrain vehicles (ATVs).

Personal Protective Equipment: Selection, Fit, and Care

Did you know that protective equipment is not all created equal? And that one size does not fit all? Learn helpful tips for selecting, fitting, and caring for protective equipment such as gloves, hearing protection, and eye protection. You'll be safer and healthier; and thankful that you can hear your children and grandchildren, see your crops and livestock, and breathe comfortably and peacefully at night!

Large Animal Safety

The session will cover topics such as cattle inoculation, retrieving cattle that escape from pasture and fenced-in areas and related liability issues, transporting cattle safely, equipment safety, and a history of livestock transportation in this geographical area.

Emergency Preparedness

Whether you are talking about preparation for a widespread natural disaster or a personal farm injury, there are steps you can take to be better prepared when an event strikes. This presentation will discuss specific things you can do to get through the situation without panic and fear.
