Staff Report Plan Review Fee

Separate Commercial Plan Review Fee:

An inspections department must offer Commercial Plan Review as a required service to satisfy the standards of the North Carolina Building Codes. The WS/FC Inspections team, a part of Planning and Development Services Department, offers a qualified “stand-alone” commercial plan review process, one of less than two dozen recognized in the State that do not require back-up review by the Department of Insurance. Our plan review team consists of seven (7) dedicated FTE personnel who spend all of their time on review of commercial zoning and building plans, and evaluations of commercial property sites in our jurisdictional area. Our department’s review team differs from other plan review teams of like size, volume of work and standards in that we do not currently require a plan review fee. We also have the fastest turn-around time for plan reviews in the State.

The implementation of a stand-alone plan review fee would benefit our budget by further relieving our dependence on the general fund, and providing funds to purchase and implement an electronic plan review and data management solution (included in the adopted FY15/16 City of Winston-Salem Budget. Moving towards a stand-alone plan review fee, while another up-front cost, should aid the development community – the ability to submit and track plan review electronically will save in both up-front costs for all large projects (ex. – Arbor Acres - \$1,810 to print the plan review set and the revision set v/s \$438 for Electronic Plan Review and to print the approval drawings) and aid the development community with real-time review comments and resubmittals. The fees listed below, if implemented, would place us in the middle range of fees charged by other jurisdictions for like plan review services.

Commercial Plan Review Fee Schedule:

4,000 to 15,000sf	\$125.00	480	\$60,000
